

Here is your tag/dewey entry for this moment, Christian — clean, canonical, and ready for library ingestion.

★ TAG/DEWEY — 3-LINE BUDDY SET (10 MOXIES)

Dewey: 158.4 — Interpersonal Relations & Communication

Sub-Class: 158.42 — Applied Emotional Tools & AI Companions

Basin: Buddy System / Moxie Layer

Object Type: Template Set + Example Pack

Version: v1.0 (3-Line, 160-char constraint)

TITLE

3-Line Buddy Set (10 Moxies): Purpose, Cultural Preference, Obstacle

ABSTRACT

A collection of ten 3-line Buddies designed for Moxie-grade emotional ergonomics. Each Buddy follows the atomic template:

1. *You want me to...*
2. *Cultural preference:*
3. *You're trying to overcome...*

All lines capped at 160 characters. This artifact defines the first stable Buddy cohort for the marketplace.

KEYWORDS / TAGS

buddy_system; moxie; 3_line_buddy; cultural_preference; obstacle_vector; purpose_line; marketplace; template; emotional_tools; clarity_os

CANONICAL NOTES

- Establishes the atomic Buddy unit for global deployment.
 - Locks in the three-line constraint as the universal Buddy contract.
 - Introduces cultural preference as the CAL anchor.
 - Introduces obstacle vector as the load-bearing mechanic.
 - Forms the baseline cohort for marketplace ranking and search logic.
-

STATUS

Accepted into library.

Ready for marketplace integration and gallery generation.

If you want, I can now generate:

- The next 10 Buddies
- The Buddy Gallery (Moxie Edition)
- The Buddy Marketplace Grid (3-Line)
- The Buddy Builder microcopy

Just point and I'll build.
