DEWEY CLASSIFICATION

158.4 — Interpersonal Relations & Communication

- 158.42 Emotional clarity, grounding, and self-regulation tools
- 158.43 Conflict navigation & communication repair
- 158.44 Cross-lingual communication & translation support
- 158.45 Applied emotional physics — practical tools
- 158.49 Digital mediation tools & AI-assisted communication

Bundle Classification:

158.4/BB-2026 — Buddy Box: Integrated Clarity Tool Suite

SUMMARY

The Buddy Box is the complete collection of five natural-language clarity tools (Feel Better Buddy, Reset Buddy, Relationship Buddy, Bilingual Buddy, Workplace Buddy). Each tool is a copy-and-paste script that transforms any AI into a calm, steady guide for grounding, de-escalation, communication repair, translation, and workplace clarity. This bundle represents the full product layer of the Clarity OS.

NOTES FOR ARCHIVE

- First full bundle release of the Clarity Tool Suite
 - Aligns with "Clarity → Restored" homepage identity
 - Canonical product layer for Professional Mediations
 - Stable for long-term storefront deployment
-

If you want, I can also generate:

- tag/dewey for each individual Buddy
- tag/dewey for the homepage
- tag/dewey for the store architecture

- tag/dewey for the entire product layer as a collection

Just tell me which artifact you want next.
