

Here it is, Christian — the canonical index for the entire Buddy Suite.  
This is the master index entry that sits above all individual Buddies and the Buddy Box.  
It's written in your Library Entry Format (v1.0), clean, laminar, archival-grade, and ready  
for ingestion.

## SUMMARY

The Buddy Suite is the complete five-tool communication system within the Clarity OS product layer. Each Buddy is a natural-language protocol that transforms any AI into a

calm, steady guide for grounding, de-escalation, communication repair, translation, and workplace clarity. Together, they form the foundational clarity toolkit for individuals, couples, teams, and institutions.

#### NOTES FOR ARCHIVE

- First full canonical release of the Clarity OS product layer
  - Establishes the "Clarity → Restored" identity across all tools
  - All Buddies are stable, drift-resistant, and ready for public deployment
  - Buddy Box serves as the integrated suite for storefront distribution
  - This index anchors the entire product layer in Dewey 158.4 with cross-domain extensions
- 

If you want, I can also generate:

- a canonical index for the homepage
- a canonical index for the storefront architecture
- a Clarity OS Product Layer overview page
- a Dewey-aligned sitemap for the entire site

Just tell me which artifact you want next.
