

Here is your clean, canonical tag/dewey block for this moment in the thread — the *Conversation Buddy SEO + Buddy PDF backend expansion + store activation* cluster.

I'll keep it tight, laminar, and fully aligned with your library architecture.

 TAG / DEWEY ENTRY — 2026-03-18_CONVERSATION-BUDDY-SEO+PDF-BACKEND

Title: Conversation Buddy — SEO Surface + PDF Backend Canon

Dewey: 158.4 (Interpersonal Relations & Communication)

Sub-Class: 158.42 — Applied Emotional Physics: Conversational Tools

Basin: Buddies Store / Product Surfaces / SEO Layer

Object Type: SEO Meta + PDF Artifact Set

Tier: Analytic → Applied → Storefront Integration

Keywords: conversation buddy, clarity tools, micro-tools, emotional physics, SEO, product surfaces, PDF backend, micro-economy

Summary:

Canonical SEO meta package for Conversation Buddy (title, description, keyphrase), plus the full PDF-ready content set for all Buddies with a universal backend. Establishes the Buddy PDF series as a structured, repeatable artifact class. Integrates with the WooCommerce product layer and the \$1 micro-economy.

Status: Active / Store-Ready

Cross-Refs:

- 2026-03-18_BUDDY-STORE-BUILD
- 2026-03-18_WOOPAYMENTS-ACTIVATION
- 2026-03-18_BUDDY-PDF-SERIES
- 2026-03-17_DEWEY-CANON-BUDDIES

Notes:

This entry formalizes the SEO and PDF surfaces as part of the Buddy ecosystem. Conversation Buddy becomes the anchor object for the communication-tools sub-class. The universal PDF backend is now a standard for all micro-tools.

If you want, I can also generate:

- a series-level Dewey class for all Buddies
- individual Dewey entries for each Buddy PDF
- a canonical Buddy Series spine for the library

Just say "next three" or "series spine."

Absolutely — I'll append **the next three canonical sub-entries** to the existing Dewey record so the whole thing stays clean, laminar, and archivally consistent.

I'll treat these as **adjacent objects** in the same basin:

Buddies Store / Product Surfaces / SEO Layer / PDF Backend Series

Here they are, already formatted for your library.

ADDENDUM: NEXT THREE ENTRIES

(Appended to: 2026-03-18_CONVERSATION-BUDDY-SEO+PDF-BACKEND)

● 2026-03-18_CLARITY-BUDDY-SEO+PDF-CANON

Dewey: 153.83 — Cognitive Clarity & Perception Tools

Basin: Buddies Store / Cognitive Tools / SEO Layer

Object Type: SEO Meta + PDF Artifact

Tier: Analytic → Applied → Storefront Integration

Keywords: clarity buddy, cognitive clarity, micro-tools, perception reset, emotional physics

Summary:

Canonical SEO meta package and PDF artifact for Clarity Buddy. Establishes the clarity-tool subclass within the Buddy ecosystem. Anchors the cognitive-perception layer of the micro-tool series.

● 2026-03-18_RESET-BUDDY-SEO+PDF-CANON

Dewey: 158.1 — Emotional Regulation & Reset Tools

Basin: Buddies Store / Regulation Tools / PDF Layer

Object Type: SEO Meta + PDF Artifact

Tier: Applied → Stabilization → Storefront Integration

Keywords: reset buddy, emotional reset, baseline return, micro-economy, emotional physics

Summary:

Formalizes the Reset Buddy SEO surface and PDF artifact. Defines the “baseline return” subclass and integrates it into the emotional-regulation basin of the Buddy series.

-

● **2026-03-18_CALM-BUDDY-SEO+PDF-CANON**

Dewey: 152.4 — Affective Modulation & Calm Tools

Basin: Buddies Store / Affective Tools / PDF Layer

Object Type: SEO Meta + PDF Artifact

Tier: Applied → Affective Modulation → Storefront Integration

Keywords: calm buddy, affect regulation, downshift tools, emotional physics, micro-tools

Summary:

Canonical SEO and PDF content for Calm Buddy. Establishes the affect-modulation subclass and links it to the regulation-to-clarity pipeline within the Buddy ecosystem.

★ **All three entries are now appended cleanly to the original Dewey record.**

They sit in the same basin, same date cluster, same structural altitude.

If you want the **next three**, say:

“next three.”

If you want the **series spine**, say:

“series spine.”
