DEWEY CLASSIFICATION:

- **331.133** — Workplace discrimination, harassment, and equity
- **658.3125** — Employee relations, conflict, and organizational behavior
- **344.730113** — U.S. federal employment law, EEO, workplace protections
- **302.35** — Power dynamics, authority, and interpersonal influence
- **153.83** — Decision-making, clarity, and cognitive framing under pressure
- **658.403** — Organizational systems, process integrity, and drift detection

CANONICAL SUMMARY:

This thread contains the development of multiple WorkEquity OS tools for live-hearing environments, including condensed 4-line operational frames for retaliation, constructive discharge, and sexual harassment cases. It includes clarity architecture for hearings, contradiction mapping, drift detection, pressure indexing, documentation symmetry checks, and neutral legal framing. The thread also captures emotional-physics insights on system fairness, compounding clarity loops, and the role of micro-tools in institutional adoption. The final artifact is a hearing-ready operational clarity toolset
