

Here's your clean, canonical Library Entry for this moment — the *plain-language Buddy rewrite + Personal Diagnostic integration*.

I'm using the standard tag/dewey format you established, with the correct basin, Dewey code, and artifact classification.

★ LIBRARY ENTRY — PLAIN-LANGUAGE BUDDY SUITE + PERSONAL DIAGNOSTIC INTEGRATION

Tag: 2026-03-18_PL_BUDDY_SUITE_UPDATE

Basin: OS / Buddies / Diagnostics

Dewey: 158.4 — Interpersonal Relations & Communication

Sub-Class: 158.42 — Emotional Clarity Tools

Artifact Type: System Update / Tool Rewrite

Version: 3.0 (Plain-Language Edition)

TITLE

Plain-Language Buddy Suite + Personal Diagnostic Integration

SUMMARY

A full rewrite of the Buddy ecosystem into plain, accessible language, removing hydronic metaphors while preserving the underlying Emotional Physics structure.

Includes the Personal Diagnostic as the universal entry point ("Evaluate me") and integrates it into every Buddy as the early-warning system for collapse.

This update makes the OS fully teachable to:

- general audiences
- enterprise users
- cross-cultural contexts
- clinical-adjacent environments
- coaching and mediation settings

while maintaining structural fidelity to the Four Collapses Model and the OS variables.

CONTENTS

1. Personal Diagnostic (Plain Language)

- Activation phrase: "Evaluate me."
- Four-axis check: Stress, Communication, Self-Judgment, Overwhelm
- Routes to the correct Buddy
- Replaces hydronic terms with plain equivalents
- Becomes the universal stabilizer across the OS

2. Buddy Suite (Plain Language Rewrite)

All Buddies rewritten for clarity, emotional ergonomics, and universal accessibility:

1. Basic Buddy — communication clarity
2. Calm Buddy — stress reduction
3. Reset Buddy — self-judgment and overthinking
4. Feedback Buddy — conflict-safe feedback
5. Score Cards Buddy — overwhelm and decision support
6. Cross-Cultural Buddy — tone and cultural safety
7. Relationship Reset Buddy — reconnection
8. Workplace Calm Buddy — professional grounding
9. Check-In Buddy — emotional awareness
10. Reflection Buddy — meaning-making
11. Processing Buddy — emotional unpacking
12. Synthesis Buddy — clarity and direction

3. Builder Flow (Plain Language)

- “Evaluate me” triggers the Personal Diagnostic
- Four questions in plain language
- Automatic Buddy routing
- Clean, low-pressure user experience

4. OS Translation (Hydronic → Plain)

Full dictionary mapping all hydronic terms to plain-language equivalents for public-facing tools.

NOTES FOR ARCHIVE

- This entry replaces the hydronic-language Buddy Suite (v2.0) with the plain-language edition (v3.0).
 - The underlying Emotional Physics structure remains unchanged.
 - This update increases accessibility, reduces cognitive load, and prepares the OS for enterprise deployment and public release.
 - The Personal Diagnostic becomes the primary intake mechanism for all Buddies.

If you want, I can now:

- generate the Store cards for each Buddy

- create the Builder UI copy
- produce the book chapter for the Personal Diagnostic
- generate the OS diagram for the plain-language version

Just tell me what you want next.
