PAGE 2 - HOW TO USE

How This Buddy Works

This Teacher Buddy is a bilingual SP/EN clarity tool designed for real classroom pressure: planning, communication, paperwork, and grading. It reads what you describe, identifies the load and structure underneath, and gives you one clear next move.

Use it during planning, during class, or during difficult moments with parents or administration.

To use:

1. Copy the entire Buddy.
2. Paste into any AI.
3. Speak normally in Spanish or English.
4. The system responds with calm, clear structure.

This tool reduces pressure, restores clarity, and keeps communication clean and professional across languages.

Emotional physics is one; languages are many.
