- Agents are fluent in English, Spanish, and French. For other languages, we partner with a translation service with the ability to interpret over 250 others.

Our Mission

To provide the people and technology that will help our clients run their businesses, *their way*.

How you
benefit from
**The AnswerNet
Difference**

AnswerNet provides the people and technology to help you implement quickly and effectively, in any situation. We utilize a process based on an entrepreneurial culture that makes your individual needs our core focus.

With over 20 contact centers across the U.S. and Canada, we are uniquely positioned to place or answer any call, text, chat, or video to any device, in any language, at any time, any place. With no project too big or too small, our programs not only make our clients money, but they also save them money. When other call centers have a project they can't handle or that doesn't fit them, they call AnswerNet *"The Call Center's Call Center."*

People

With 2,000+ employees – from friendly agents and back-office support, to reliable sales reps and tech gurus – we have the right team in place to help you succeed.

Technology

We utilize state-of-the-art technology to get the best results at the lowest cost. The size of our IT department alone is larger than most of our competitors.

Speed

Our extensive experience, resources, and processes work together to get your program up & running quickly and effectively.

The "Call Center's Call Center"

If you're looking for an experienced call center, there's no better proof of our ability than knowing that when other providers can't, they turn to us because *we can!*

Data Security

Our cloud-based system is hosted and backed-up on Amazon Web Services (AWS) for extra data protection.

Unlimited Scalability

We have decades of experience handling all types & sizes of inbound, outbound, automated, and BPO contact center service projects.

Entrepreneurial Culture

Our culture of entrepreneurialism puts your ROI front and center. We share your desire to find the optimal mix of people and technology to help you succeed.

"The Business of Any"

The ultimate in omni-channel solutions, we can communicate with anyone, at any time, in any place, on any device, in any language – *all tailored to your business.*

Our Process

We use a **4-phase process** to ensure that our service not only meets your expectations, *but exceeds them*:

DISCOVERY

Our program begins with a comprehensive discovery process where your business' current and future needs are established.

IMPLEMENTATION

Using information gathered in the discovery phase, we create a step-by-step implementation plan designed to optimize your services & increase the effectiveness of your program.

REPORTING

Once your program is up-and-running, we check-in on a regular basis and provide detailed reports to ensure your communication needs are continuously met and addressed.

REVIEW

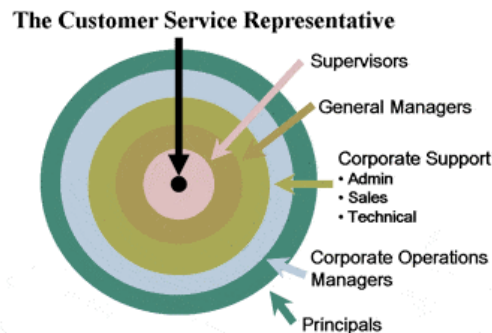

Along with your reports, we regularly conduct quality assurance reviews of our agents and our technology to make sure your clients and prospects are delighted with every call.

Our Technology

- Full-service, 24/7/365 technical assistance is available from our in-house support team
- Clients benefit from our utilization of our partner, SA Hosted's, Virtual Call Center platform (VCC) – a hosted, omni-channel, contact center solution that allows our sites to manage calls, emails, chats, texts, and more
- VCC includes a powerful API that manages integrations with 3rd party applications to seamlessly engage with your business process systems (*including CRMs*)
- Secure data exchange capabilities (*including 3DES encrypted files with optional Drag-n-Drop decryption tool, SSL-encrypted web portal, and SFTP, XML/JSON/Web Services via SSL*)
- Ability to deliver compliance for both on-premise and virtual environments
- Compliance certifications: HIPAA, PIPEDA, PCI-DSS, FEPA, GDPR, and SOC 2

Management Structure

Our culture is designed to support the individual contributor doing the work on behalf of our clients.
